## Delivering the cables to capture world events at awe-inspiring speed and altitudes

# SHOT OVER

Amphenol Custom Cable helps SHOTOVER reach new heights as a world-renowned drone cinematography and aerial imaging innovator. SHOTOVER designs and manufactures unparalleled, high-performance camera systems and unmanned aerial vehicles (UAVs).

**Situation:** Fueled by the passion for flying, filmmaking and broadcasting, SHOTOVER's UAV, drone and aerial camera systems take the motion picture, entertainment, surveillance, sports, and broadcast industries to dynamic new heights at an epic scale.

To keep up with the global demand for its ground-breaking gyro-stabilized camera platforms produced in New Zealand, SHOTOVER required high-quality RF connector assemblies.

Reliable connectivity is vital for securing SHOTOVER's unprecedented level of stability, control and versatility in challenging environments. The award-winning mobile camera systems outfit anything that moves, from drones, helicopters and planes to diverse watercraft and ground vehicles.

**Fast, High-Performance Solutions:** SHOTOVER was referred to Amphenol Custom Cable to design, build, and order the RF connectors needed in record time to meet an intense production schedule.

Engineered to excel, Amphenol Custom Cable's online cable configurator advances customization, efficiency, and convenience to create and deliver unique cable assemblies that perform reliably under intense atmospheric conditions.

SHOTOVER engineers and technicians designed the custom RF cable assemblies required online easily. Amphenol Custom Cable quickly built, inspected, and shipped the cable assemblies to New Zealand in record time—less than one week. Additionally, SHOTOVER has access to technical and customer care resources to further heighten the connectivity capabilities of its UAV and aerial camera systems.

"The Amphenol Custom Cable team is great to work with. We appreciate their effort to get the cables up and ready to order and ship so quickly."

- Trevor Tinworth  
Senior Electronics Engineer,  
SHOTOVER

**Amphenol Custom Cable's online RF cable configurator and fast delivery of cable assemblies advances innovation for SHOTOVER'S mobile camera systems and UAVs.**

### BUY SITE

Custom RF cable assemblies

### SPEED

Built and delivered to New Zealand in less than 1 week

### CUSTOMIZED SOLUTION

Tailored for extraordinary performance

### 100% INSPECTION

U.S.-made, quality controlled and certified

### ENGINEERING & SUPPORT

Technical expertise and customer care
